

Improving access to Puyallup Station

Summer 2015

Area of proposed improvements:

- New parking garage at the existing Eagles site with approximately 503 spaces
- Approximately 87 additional surface parking spaces on 3rd Avenue NW
- 100 additional leased spaces at the Red Lot at 7th Avenue SW and 5th Street SW
- Potential pedestrian access improvements within 1/4 mile of the station
- Potential bicycle access improvements within 1/2 mile of the station
- An option for two pedestrian bridges, one across the railroad tracks and the other across 5th Street NW
- Potential traffic improvements in the station area
- Potential car, bike and pedestrian access improvements to the SR 410/ Traffic Avenue interchange (funding needed), in partnership with the Washington State Department of Transportation, cities of Sumner and Puyallup, and others

Project timeline

2000-2012

- Sounder commuter rail service begins
- Sound Transit 2 funding approved (2008)
- Sounder Stations Access and Demand Study (2010 – 2012)

2013

- Leadership Working Groups comprised of Council members and Sound Transit Boardmembers identified project goals and evaluation criteria

2014

- Multi-modal access alternatives development: received community input on improvements through development of six multi-modal access packages
- Sound Transit Board identified preferred package of improvements for environmental review and preliminary design (August)

2015

WE ARE HERE

- Puyallup City Council approved a 5-level garage that is 4½ stories tall at the existing Eagles site (January) for environmental review
- Environmental review and open house
- Preliminary design

2016-2018

- Final design including architectural garage design
- Right-of-way/property acquisition and permitting

2019-2021

- Construction
- Improvements complete 2021
