

Transitional Resources Form Letter

Many of the people Transitional Resources serves will be irrevocably impacted by the proposed alternative routes outlined in DEL-5 and DEL-6 if these options move forward.

The planned route for DEL-5 and DEL-6 would directly impact three of Transitional Resources’ properties and would devastate the vital services TR provides to the community. Without these services or programs, the people who live in the buildings—as well as those who receive services from the buildings--would be displaced and/or disconnected from the services they need. The loss of these critical services in our community would be devastating to not only the clients they serve, but to our larger community, as finding alternative housing and services that address the unique needs of the populations they serve in the same way TR does would be challenging.

As someone who cares deeply about our community and the nonprofits that provide support to those in need, I strongly urge Sound Transit to reject both the DEL-5 and DEL-6 alternative proposals.

Communication (4/22/2022)

I am writing to comment on the proposed Delridge segment of the West Seattle Link Extension plan. I strongly oppose the DEL-5 and DEL-6 proposals of Sound Transit's light rail plan, as it would devastate a nonprofit that provides services to our community's most vulnerable people.

Transitional Resources is a community behavioral health agency located in West Seattle on SW Avalon Way. They serve vulnerable adults from all over King County who are living with serious mental illness and provide them with behavioral health treatment and supportive housing services, ensuring these folks remain safe, healthy, and housed. Transitional Resources has multiple properties and serves a multitude of people who live in various parts of West Seattle, but a majority of whom are within very close proximity to their offices located on SW Avalon Way. Many of the people Transitional Resources serves will be irrevocably impacted by the proposed alternative routes outlined in DEL-5 and DEL-6 if these options move forward.

The planned route for DEL-5 and DEL-6 would directly impact three of Transitional Resources' properties and would devastate the vital services TR provides to the community. Without these services or programs, the people who live in the buildings—as well as those who receive services from the buildings—would be displaced and/or disconnected from the services they need. The loss of these critical services in our community would be devastating to not only the clients they serve, but to our larger community, as finding alternative housing and services that address the unique needs of the populations they serve in the same way TR does would be challenging.

As someone who cares deeply about our community and the nonprofits that provide support to those in need, I strongly urge Sound Transit to reject both the DEL-5 and DEL-6 alternative proposals.

I am writing to comment on the proposed Delridge segment of the West Seattle Link Extension plan. I strongly oppose the DEL-5 and DEL-6 proposals of Sound Transit's light rail plan, as it would devastate a nonprofit that provides services to our community's most vulnerable people.

Executive Summary:

If those proposals are implemented, one of Seattle's most effective organizations helping people with serious mental illness stay safe, healthy and housed will have its support services seriously disrupted. The organization is Transitional Resources. Offering housing, health care and professional support to hundreds of individuals, using several properties (many of them shared homes clustered around the main building from which staff work), Transitional Resources is able to deliver services to these vulnerable people that make the difference between their falling into deep trouble, and having a stable and often productive life. The proposed routes DEL-5 and DEL-6 will affect three TR properties and put physical barriers between buildings in this community, disrupting services. It would be a devastating blow.

This would affect not only the clients of TR, but also the greater Seattle community where services like those TR provides are sorely needed.

Please Read On

Transitional Resources is a community behavioral health agency located in West Seattle on SW Avalon Way. They serve vulnerable adults from all over King County who are living with serious mental illness and provide them with behavioral health treatment and supportive housing services, ensuring these folks remain safe, healthy, and housed. FWIW: I'm an avid supporter of Link and love riding it. I got up early on the first day it opened to Northgate just to take the trip. I want more Link to more destinations as fast as you can build it.

With that said:

I am writing to comment on the proposed Delridge segment of the West Seattle Link Extension plan. I strongly oppose the DEL-5 and DEL-6 proposals of Sound Transit's light rail plan, as it would devastate a nonprofit that provides services to our community's most vulnerable people.

Transitional Resources is a community behavioral health agency located in West Seattle on SW Avalon Way. They serve vulnerable adults from all over King County who are living with serious mental illness and provide them with behavioral health treatment and supportive housing services, ensuring these folks remain safe, healthy, and housed. Transitional Resources has multiple properties and serves a multitude of people who live in various parts of West Seattle, but a majority of whom are within very close proximity to their offices located on SW Avalon Way. Many of the people Transitional Resources serves will be irrevocably impacted by the proposed alternative routes outlined in DEL-5 and DEL-6 if these options move forward.

The planned route for DEL-5 and DEL-6 would directly impact three of Transitional Resources' properties and would devastate the vital and integrated services TR provides to the community. Without these services or programs, the people who live in the buildings—as well as those who receive services from the buildings—would be displaced and/or disconnected from the services they need. The loss of these critical services in our community would be devastating to not only the clients they serve but to our larger community, as finding alternative housing and services that address the unique needs of the populations they serve in the same way TR does would be challenging.

There is a crisis right now in mental health care and a large demand for the services TR provides. Uprooting the critical programs that they provide, as well as displacing the individuals they serve when the demand is already high, would put unnecessary pressure on the system. The results could be catastrophic, both to our clients and to the community at large.

As someone who cares deeply about our community and the nonprofits that give to those in need, I strongly urge the committee to reject both the DEL-5 and DEL-6 alternative proposals.

Communication (4/27/2022)

I am writing to comment on the proposed Delridge segment of the West Seattle Link Extension plan. I want to express my strong opposition to the DEL-5 and DEL-6 proposals of Sound Transit's light rail plan, as it would cripple and perhaps even effectively end the operations of Transitional Resources, a nonprofit that provides services to our community's most vulnerable people.

Transitional Resources ("TR") is a community behavioral health agency located in West Seattle on SW Avalon Way. For nearly a half century, TR has developed successful programs and housing to serve vulnerable adults from all over King County. These vulnerable citizens are living with serious and persistent mental illness, and TR provides them with behavioral health treatment and supportive housing services to ensure these folks remain safe, healthy, and housed. I served on TR's board for 15 years and can testify to its success at building community and stability for individuals who previously did not enjoy these things. TR owns or rents several properties and serves a multitude of people who live in various parts of West Seattle, but the majority of people it serves have their homes within very close proximity to TR's offices that are located on SW Avalon Way. Many of the people that TR serves will be irrevocably negatively impacted by the proposed alternative routes outlined in DEL-5 and DEL-6 if these options move forward. DEL-6 would be particularly devastating for them, but DEL-5 would also cause disruption and uprooting of people for whom such experiences are particularly difficult.

The planned route for DEL-5 and DEL-6 would directly impact three of Transitional Resources' properties and would catastrophically alter TR's ability to deliver its vital programs and services to our community. Without these services or programs, the people who live in the impacted buildings—as well as those who receive behavioral health services in those buildings—would be displaced and/or disconnected from the services they need. The loss of these critical services in our community would be devastating not only to the people they serve, but to our larger community, as finding alternative housing and services that address the unique needs of the populations they serve in the same way TR does would be challenging. Some of the people who will be displaced have lived in their homes for two decades or more. The impact of the loss of a home for these individuals cannot be determined in simple monetary terms. They are particularly vulnerable to change. They need access to resources that are at or very near their homes. I ask you to take this into consideration. TR has been a success story in helping solve one of this area's thorniest and persistent issues. Please preserve that success.

As someone who cares deeply about our community and my vulnerable neighbors who are served by the nonprofits that provide support that they need, I strongly urge Sound Transit to reject both the DEL-5 and DEL-6 alternative proposals. Thank you for this opportunity to provide input and your consideration.

Transitional Resources has multiple properties and serves a multitude of people who live in various parts of West Seattle, but a majority of whom are within very close proximity to their offices located on SW Avalon Way. Many of the people Transitional Resources serves will be irrevocably impacted by the proposed alternative routes outlined in DEL-5 and DEL-6 if these options move forward.

The planned route for DEL-5 and DEL-6 would directly impact three of Transitional Resources' properties and would devastate the vital services TR provides to the community. Without these services or programs, the people who live in the buildings—as well as those who receive services from the buildings—would be displaced and/or disconnected from the services they need. The loss of these critical services in our community would be devastating to not only the clients they serve, but to our larger community, as finding alternative housing and services that address the unique needs of the populations they serve in the same way TR does would be challenging.

As someone who cares deeply about our community and the nonprofits that provide support to those in need, I strongly urge Sound Transit to reject both the DEL-5 and DEL-6 alternative proposals. Thank you.

As a former board member for Transitional Resources I am writing to ask for Sound Transits reconsideration of the plan for West Seattle due to the significant negative impact it will have on vulnerable members of our community who rely on public transportation.

I am writing to comment on the proposed Delridge segment of the West Seattle Link Extension plan. I strongly oppose the DEL-5 and DEL-6 proposals of Sound Transit's light rail plan, as it would devastate a nonprofit that provides services to our community's most vulnerable people.

Transitional Resources is a community behavioral health agency located in West Seattle on SW Avalon Way. They serve vulnerable adults from all over King County who are living with serious mental illness and provide them with behavioral health treatment and supportive housing services, ensuring these folks remain safe, healthy, and housed. Transitional Resources has multiple properties and serves a multitude of people who live in various parts of West Seattle, but a majority of whom are within very close proximity to their offices located on SW Avalon Way. Many of the people Transitional Resources serves will be irrevocably impacted by the proposed alternative routes outlined in DEL-5 and DEL-6 if these options move forward.

The planned route for DEL-5 and DEL-6 would directly impact three of Transitional Resources' properties and would devastate the vital services TR provides to the community.
