Monthly ridership figures are preliminary and subject to revision on a quarterly basis.

November 2016:	21 Weekdays	5 Saturdays	4 Sundays
November 2017:	21 Weekdays	4 Saturdays	5 Sundays

**Sound Transit** ridership increased by 152K, or 4.2%, compared to November 2016. System-wide average weekday boardings increased by 3.6% during the month. All modes except ST Express registered ridership increases during the month of November.

*ST Express* ridership decreased by 40K, or 2.6%, during the month of November. Average weekday boardings also decreased slightly, by 2.6%. Ridership on the SR-520 and I-5 South corridors led the way in ridership growth during the month.

**Sounder** ridership increased by 14K, or 4%, compared to November 2016. Average weekday boardings on Sounder increased overall by 3.7% compared to the same period last year. Average weekday boardings increased on both the North and the South Line by 2.4% and 3.9%, respectively. South Line ridership growth was in large part due to the two new round trips added in the September service change.

*Tacoma Link* ridership increased by 3K, or 4.3%, during the month of November. Average weekday boardings decreased marginally by 0.3% over the same period of last year.

*Link* ridership increased by 173K, or 10.2%, compared to the same period last year. Average weekday boardings were up 9.7%.

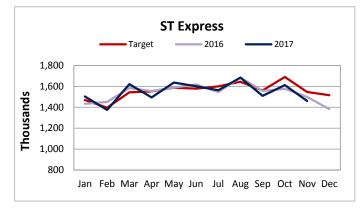

*Paratransit* services increased by 21.4% compared to November 2016. The increase in paratransit ridership is attributed to the increased ridership on Link with the opening of the University Link and Angle Lake extensions and additional customers requesting access to the Link system.

Paratransit daily boardings are assumed equal between weekdays, Saturdays, and Sundays.

January 4, 2018

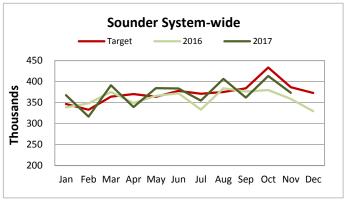

ST Express ridership decreased by 2.6% compared to the same time last year. YTD ridership is essentially flat when comparing to YTD prior year and YTD target.

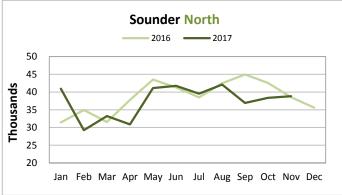

Tacoma Link ridership increased by 4.3%; however average weekday boardings decreased marginally by 0.3% compared to November 2016. YTD ridership is 5.9% below the YTD target but trending 3.8% better than the same time last year.

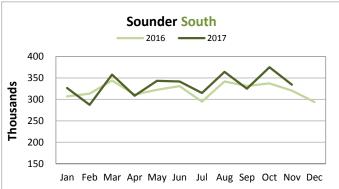

Link ridership was up 10.2% compared to November 2016. Average weekday, Saturday, and Sunday boardings also increased by 9.7%, 18.2%, and 3%, respectively. YTD ridership is 1.9% above the YTD target and 23.7% over last year.

Sounder system-wide monthly ridership increased by 4% compared to the prior year. YTD ridership was slightly below target by 0.4% but 2.8% higher than 2016 YTD. Average weekday boardings increased by 3.7%.

Sounder North ridership and average weekday boardings increased by 0.6% and 2.4%, respectively, compared to November 2016.

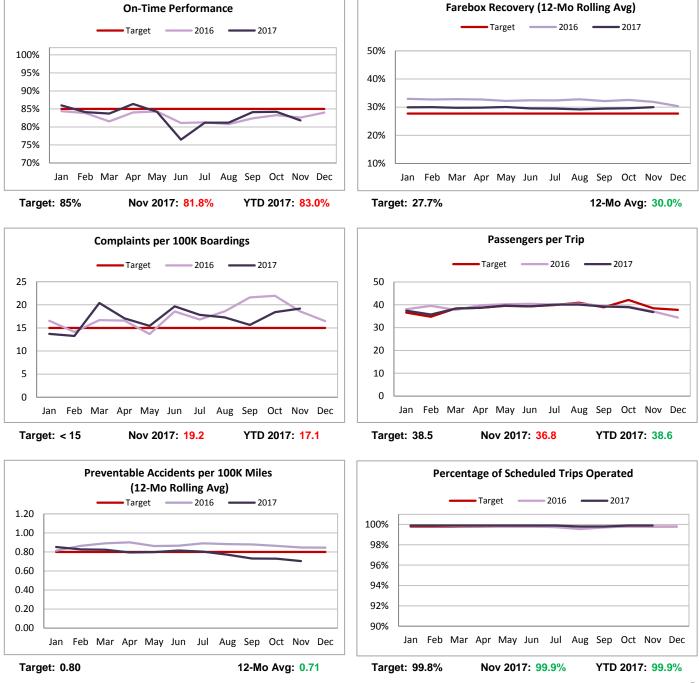

Sounder South ridership increased by 4.4%, or 14K. Average weekday boardings also increased by 3.9% compared to the same time last year.

2

# ST Express

#### <u>Highlights</u>

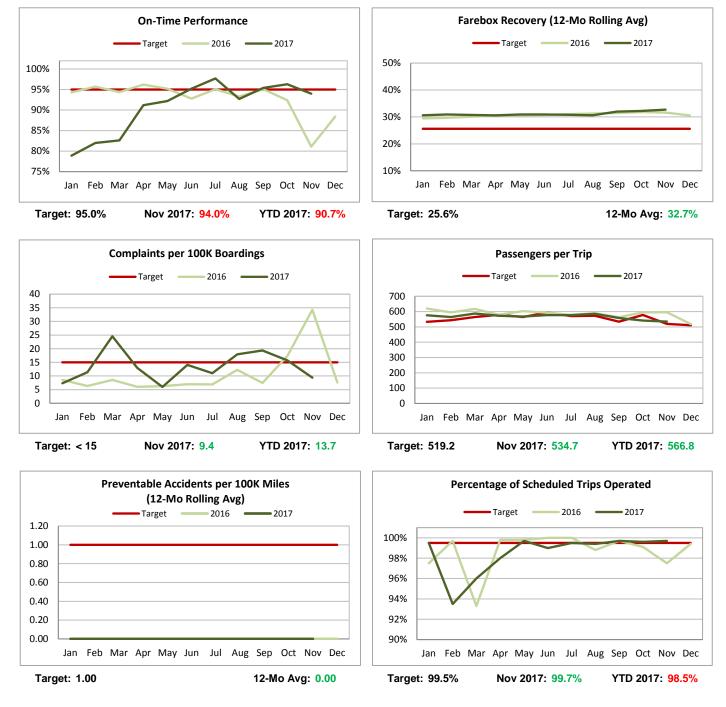

- Due to temporary data collection issues from King County Metro, November's on-time performance is an estimate. We expect the issue to be resolved in the coming months.
- Customer complaints missed the monthly and annual targets. Traffic congestion continues to impact performance and the customer experience.
- Passengers per trip fell below the monthly target at 36.8 but met the annual target at 38.6. Low fuel prices and freeway congestion have limited ridership increases.
- Preventable accidents per 100K miles met the monthly target and shows continued improvement from last year.

## Sounder Commuter Rail

#### **Highlights**

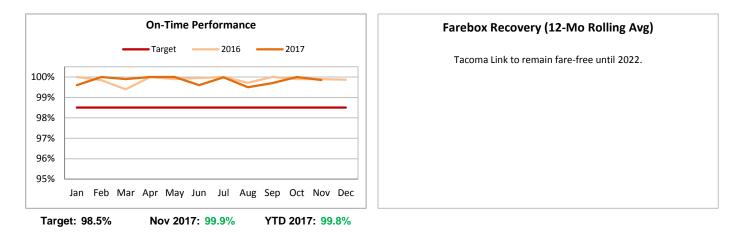

- Sounder met all monthly targets with the exception of on-time performance. Freight interference, track blockage events, and slow orders due to weather impacted performance in November.
- Percentage of scheduled trips operated exceeded the monthly target at 99.7% but fell short of the annual target at 98.5% due largely to the number of landslides in the first quarter of the year.

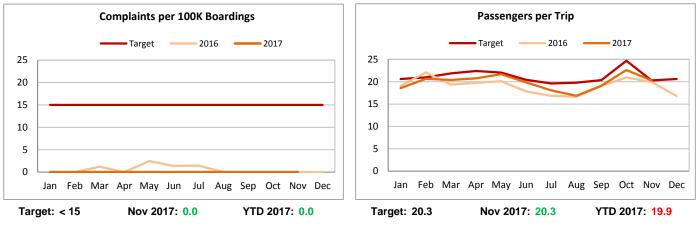

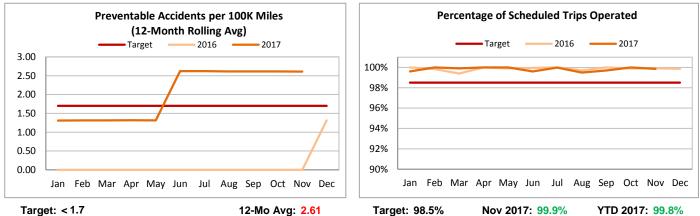

### **Tacoma Link**

#### **Highlights**

- Tacoma Link consistently performs better than target for on-time performance, complaints per 100K boardings, and percentage of scheduled trips operated.
- Passengers per trip met the monthly target at 20.3, but fell short of the annual target.
- Preventable accidents per 100K miles is based on a 12-month rolling average. Tacoma Link's 12-month rolling average during the month was 2.61 due to one preventable accident that occurred in the yard during non-revenue hours in December 2016 and one preventable accident that occurred during service in June.

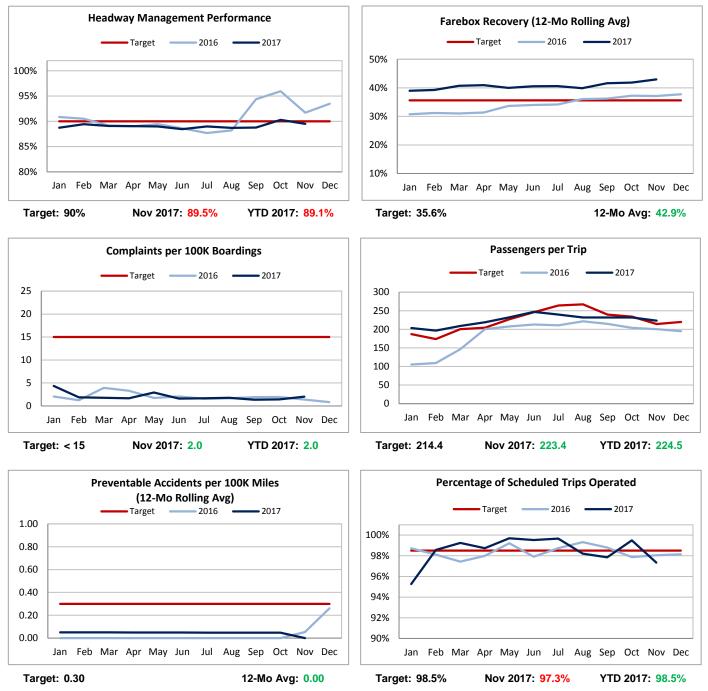

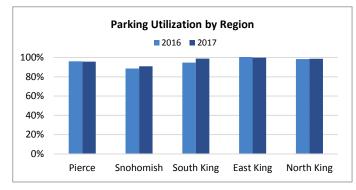

### Link

#### **Highlights**

- Headway management performance was below the monthly target at 89.5%. Delays in the DSTT and along the MLK corridor continue to impact performance.
- Farebox recovery is trending above 40%, well over the 35.6% target due to increases in ridership.
- Passengers per trip exceeded the monthly and annual target at 223.4 and 224.5, respectively. Link showed less of a summer spike than was forecast, but other metrics have trended higher than expected.
- Percentage of scheduled trips operated was below the monthly target at 97.3%, but met the YTD target at 98.5%.

## **General Transit**

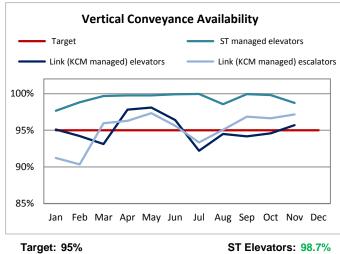

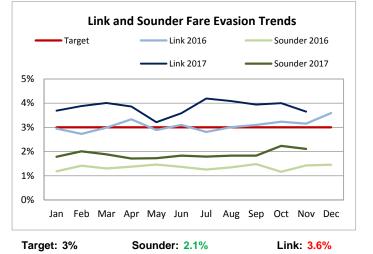

System-wide Permanent & Leased Parking											
November 2017											
Region	Available	Utilized	% Utilized								
Snohomish	3,613	3,283	91%								
North King	239	236	99%								
East King	1,266	1,264	100%								
South King	4,991	4,934	99%								
Pierce	4,965	4,750	96%								
System Total	15,074	14,467	96%								

Excluding leased lots for East Link construction mitigation, a total of 15,074 parking stalls are available at 29 locations in Pierce, Snohomish, and King County. Overall, the number of spaces available to customers decreased by 1.1% compared to last year and the number of customers utilizing the spaces increased by 0.6%.

Parking utilization at Angle Lake garage has steadily increased since its opening in September 2016. In the month of November, utilization reached 100%.

System-wide utilization grew in Snohomish and King Counties by 2.2% and 2.9%, respectively. Pierce County usage decreased by 0.4%. Many of our parking facilities continue to be at or near capacity.

Link Elevators: 95.7% Link Escalators: 97.2%

Targeted availability is set at 95% to match contract standards.

Sound Transit managed conveyances at ST Express and Sounder stations consistently perform above the 95% target availability and achieved 98.7% during the month.

KCM managed Link conveyances also exceeded target with elevators reaching 95.7% and escalators reaching 97.2% uptime during November.

Fare Evasion on Link was 3.6%, an increase compared to the prior year, and above the 3% targeted range. During the month Link boardings increased 9.1% compared to last year, which combined with fare enforcement officer vacancies, resulted in a lower inspection rate.

Sounder fare evasion also increased compared to the same time last year, with final results of 2.1% for the month.

Overall, combined fare evasion was 3.4%, above the targeted range. Fare inspections reached 5.4% of all rail passengers in November 2017, below the targeted inspection rate of 10% primarily due to staffing vacancies and higher ridership.
