It is unfair and confusing that ST Express fares on routes within King County are 50c higher than Metro Transit fares. It creates silly and absurd situations like Bellevue – Seattle is \$3.25 on ST 550 while Bellevue – UW is \$2.75 on MT 271. ST Express fares within King County should be the same as Metro fares since it's the same service provided and just a jurisdictional question as which agency is branding the service.
